Fun with a Purpose

Space Place

Reading Space

Do you know what astronauts like to read? Follow each line from a letter to a blank space and write the letter in that space. When you are finished, you will have the answer.

Illustrated by Mike Moran

Milky Way Mystery Word

What am I? (In each box, write the letter revealed by the numbered clue.)

1 I am in STAR and MARS but not in EARTH.

3 I am in COMET and ORBIT but not in MOON.

5 I am in GRAVITY and MERCURY but not in GALAXY.

6 I am in RING and SUN but not in COSMIC.

2 I am in PLANET and ASTRONOMY but not in NEPTUNE.

4 I am in JUPITER and VENUS but not in OBSERVE.

1	2	3	4	5	6
---	---	---	---	---	---

Tic Tac Row

Each of these spaceships has something in common with the other two spaceships in the same row. For example, in the first row across, all three spaceships have an antenna on top. Look at the other rows across, down, and diagonally. Can you tell what's alike in each row?

Illustrated by Jim Paillot

Space Find

The names of 17 space words are hidden in the letters. Some words are across. Others are up and down. We found ASTRONAUT. Can you find the rest?

Word List

- ASTRONAUT
- BLAST OFF
- COMET
- GALAXY
- LAUNCH
- MARS
- MOON
- NASA
- ORBIT
- PLANET
- ROCKET
- SHUTTLE
- SOLAR
- SPACESHIP
- STAR
- SUN
- VENUS

Scrambled Space

Need more space? You've come to the right place! Unscramble these space words. Once you have them all straightened out, read down the column of boxes to learn the answer to this riddle:

What do you get when you cross a galaxy and a toad?

M A R S
